era please notice.

When a few weeks ago, we announced Mr. R. B. Mayes as political editor of this paper, we remarked that like Major Molly we hould be ready to resume our place beside the cannon when there was no stronger, hand than ours to supply it with ammunition. We have air until Mr. Mayes rers from his temporary disability. It affords pleasure to inform the patrons of the Banner that he is doing well and will most probahly be able to resume the post he has so ably and honorably maintained in a few days. In the meantime we will reiterate what we stated three weeks ago, that it is fa'se in conception, false in utterance, false in to'o that any person was ever assaulted through the columns of this paper and could not get the satisfaction a gentleman requires. If there is any one be he a belle, lettre scholar endorsed by a picayune college. or an old field school house strict constructionist, who chooses to wrest the plain English of what we have heretofore written or may hereafter write from its legitimate meaning into an insult to himself, he can call at this office and we will give him references where he can get any satsfaction he wants.
